

MATERIAL SAFETY DATA SHEET

1. Substance and Company Information					
Product name		ROSEMARY OIL			
Company		Penny Price Aromatherapy Ltd			
		The Stables			
		41 Leicester Road			
		Hinckley			
		Leicestershire LE10 1LW			
Emergency Telephone Number		00 44 (0) 1455 251020			
2. Composition/Ingredient Information					
Definition/Botanical origin: The volatile oil obtained by steam distillation from the twigs and fresh flowering tops of shrubby perennial <i>Rosemarinus officinalis</i> L. (Fam. Labiatae)					
H-No:	3301.2961	CAS No:	8000-25-7	Status:	Natural
CoE No:	406	FEMA	2992	Additives:	None
FDA	§ 182.10	IFRA	Not restricted	RTECS:	-
RIFM	Monograph	EINECS:	283-291-9	FCCIV:	Official
INCI name	<i>Rosemarinus officinalis</i>				
3. Hazards Identification					
Concentrated product. Do not ingest. Observe good housekeeping procedures					
4. First Aid Procedure					
Inhalation	Remove from exposure site to fresh air. Keep at rest. Obtain medical attention.				
Eye contact	Rinse immediately with plenty of cold water for at least 5 minutes. Contact a doctor if symptoms persist.				
Skin contact	Remove contaminated clothes. Wash thoroughly soap and water, flush with plenty of water. If irritation persists seek medical attention.				
Ingestion	Rinse mouth out with soap and water. Seek medical advise at once.				
Other	When assessing action take Risk and Safety Phrases (section 15) in to account				
5. Fire fighting measures					
Suitable extinguishing media	Use CO2 dry powder or foam type of extinguishers, spraying extinguishing media to base of flames. Do not use direct water jet on burning material.				
Special measures	Avoid vapour inhalation. Keep away from sources of ignition. Do not smoke. Wear positive pressure self-contained breathing apparatus and protective clothing				
Extinguishing procedures	Closed containers may build up pressure when exposed when exposed to heat and should be cooled with water spray				
6 Accidental release measures					
Personal precautions	Avoid inhalation and direct contact with skin and eyes. Use individual protective equipment (safety glasses, waterproof boots, suitable protective clothing) in case of major spillages.				
Environmental precautions	Keep away from drains, soils, surface and ground waters				
Methods for cleaning up	Remove all potential ignition sources. Contain spilled material. Cover with an inert or non-combustible inorganic material, or sweep up and remove to an approved disposal container. Observe state federal and local disposal regulations.				
7. Handling and storage					
Handling	Apply good manufacturing practice and industrial hygiene practices, ensuring proper ventilation. Observe good personal hygiene and do not eat, drink or smoke whilst handling. Avoid static discharge				
Storage	Store in tightly closed original container, in a cool, dry and ventilated area away from heat sources and protected from light. Keep air contact to a minimum.				
Fire protection	Keep away from ignition courses and naked flames. Take precautions to avoid static discharge in working areas.				
8. Exposure controls/Personal protection					
Respiratory protection	Avoid breathing product vapour. Apply local ventilation where possible.				
Ventilation	Ensure good ventilation of working area				
Hand protection	Avoid all skin contact. Use chemically resistant gloves if required.				
Eye protection	Use safety glasses				
Work/hygiene practices	Wash hands with soap and water after handling.				
9. Physical and chemical properties					
Colour	Colourless or pale yellow				
Appearance	Clear mobile liquid				
Odour	Characteristic, clean, refreshing				

Flash point °C	40
Specific gravity d ₂₀ ²⁰	0.8940 to 0.9120
Optical rotation @ 20°C	-5° to +10°
Refractive index @ 20°C	1.4525 to 1.4760
Solubility in 75% ethanol @ 20°C	1+1
Solubility in vegetable oils	Soluble
Solubility in water	Slight
Typical analysis of major components	Contains □-pinene, □-pinene, camphor, eucalyptol, camphene, limonene, □-cymene, myrcene, □-phellenadrene, g-terpinene, terpinolene, linalool, bornyl acetate, □-terpineol, borneol, terpinen-4-ol, b-caryophyllene, a-humulene, a-copaene, d-cadinene, g-muurolene, verbenol, verbenone, fenchone, □-fenchone, caryophyllene oxide, amongst others
10. Stability and reactivity	
Reactivity	It presents no significant reactivity hazards, by itself or in contact with stron acids, alkalis or oxidising agents.
Decomposition	Liable to cause smoke and acrid fumes during combustion: carbon monoxide, carbon dioxide and other non-identified organic compounds may be formed.
11. Toxicological information	
Undiluted rosemary oil was found to be non-irritating and non-sensitising to human skin: see D L J Opydyke (1974) FCT, 12, 977-978	
12. Ecological information	
Biodegradability	Data not available
Precautions	Prevent surface contamination of soil, ground and surface water.
13. Disposal considerations	
Waste material	Avoid disposing to a drainage system and into the environment. Seek expert advice.
14. Transport information	
Road (ADR/RID)	UN1993 Class 3.31c
Air (IATA/ICAO)	Class 3.3
Sea (IMDG)	Class 3.3 Flam liquids N.O.S.
UN1993	-
15 Regulatory information	
Hazards	No symbol
Symbols	
Risk phases	R10 (flammable)
Safety phases	
16. Other information	
Concentrated % limits	-
Packaging	Type and suitability
Glass	Yes
Lacquer lined steel/tin	Yes
Aluminium	Yes
HPPE	No
F/HDPE	Yes
Other plastic	No
Shelf life	
Minimum 12 months when stored in the advised conditions	
QC requirements	
In line with general product specification. Always satisfy suitability for specific application. Retest after 6 months.	
The data provided in this material safety data sheet is meant to represent typical data/analysis for this product and is correct to the best of our knowledge. The data was obtained from current and reliable sources, but is date supplied without warranty, expressed or implied, regarding its correctness or accuracy. It is the users responsibility to determine safe conditions for the use of this product and to assume liability for loo, injury, damage or expense arising from improper use of this product. The information provided does not constitute a contract to supply to any specification or for any given application and buyers should seek to verify their requirements and product use.
